

**FOR IMMEDIATE RELEASE**

***AUDIOSCIENCE SHIPS 20,000<sup>TH</sup> AUDIO ADAPTER***

NEWCASTLE, DE (July-28, 2004). – AudioScience Inc., a specialist in digital audio peripherals for the broadcast and entertainment markets, has announced that it has shipped the 20,000<sup>th</sup> audio adapter.

“We are presently in our 8<sup>th</sup> year of business ” said Richard Gross, President of AudioScience. “The broadcast and entertainment industries have demonstrated their support of AudioScience products and our company, by enabling the shipment of our 20,000<sup>th</sup> adapter. We would like to extend our thanks and appreciation to all of our customers.”

AudioScience audio adapters are sophisticated audio peripherals with specialized features designed for the needs of broadcast and entertainment applications. Software support for all flavors of Windows and the latest Linux distributions allow OEMs to deploy them in a wide variety of computer platforms.
